## **Information about your child will be at your fingertips with the SISK12 Parent Portal**

### ***What is the SISK12 Parent Portal?***

Marshall Public Schools is providing parents of our students an easy way to track their child's attendance, grades, lunch balances and more.

The Parent Portal is a very powerful tool for parents to be able to have regular meaningful conversations with their children in regard to their grades and other key school information.

The district encourages you to sign up for the SISK12 Parent Portal to gain access to the information you need to be a more informed parent. The link to the SISK12 Parent Portal will be available on the Marshall Public Schools website at [www.marshallschools.com](http://www.marshallschools.com). A username and password will gain you immediate access to your child's information.

Access to your child's data is real time, meaning it will be available to you as soon as it is updated in our system. However, report cards will continue to be printed and given to parents at the end of term grading periods.

If you have any questions about your child's progress, you can e-mail his/her teacher directly from within the Parent Portal.

### ***User Expectations***

The internet and secure web access have altered the way that confidential information may be

accessed, communicated, and transferred. Those changes are influencing instruction and student learning. Marshall Public Schools supports access by students, parents and guardians, teachers, and administrators to informational resources that will improve participation in a child's education and improve communication between students, parents/guardians and the student's teachers.

Marshall Public Schools manages student information electronically and will make the student education records available for viewing over a secure internet connection to authorized parents and guardians. All parents and guardians will be expected to comply with the internet use regulations and all technology regulations/procedures, as well as all other district policies that may apply.

### ***Rights and Responsibilities***

Parent Portal access is a free service offered to all current and active parents and guardians of Marshall Public Schools. Access to student information from the internet is considered a privilege. A parent or guardian will be authorized to activate a web account after a family has enrolled their child(ren) in Marshall Public Schools. Once a student withdraws or graduates from Marshall Public Schools, access will be inactivated. It is important for parents and

guardians, students, and staff to understand and practice proper and ethical use.

**Information Accuracy Responsibilities**

Information accuracy is the joint responsibility between schools, parents or guardians, and students.

The district will make every attempt to ensure information is accurate and complete. If a parent or guardian discovers any inaccurate information, they should notify their school immediately and provide proof of the inaccurate information.

**Information Accessible**

The Marshall Public Schools reserves the right to add, modify or delete functions viewed via the Parent Portal site at any time without notice, including, but not limited to: attendance, schedules, discipline, reports, and lunch balance.

**Security Features**

- Access is made available through a secure internet site. Account holders are encouraged to not share their passwords and to properly protect or destroy any printed/electronic documentation generated from this site.
- Five unsuccessful login attempts will disable the user’s account. Until the district has verified the assigned user to the locked account, the account will remain locked.
- A user will be automatically logged off if they leave their web browser open and inactive for a designated period of time.
- The Parent or guardian account will be inactivated when all their child(ren) have either withdrawn or graduated from Marshall Public

Schools, or a court action denies the parent or guardian access to the student’s information.

**Limitation of School District Liability**

Marshall Public Schools will use reasonable measures to protect student information from unauthorized viewing. The district will not be responsible for financial obligations arising through unauthorized use of the district’s system or Parent Portal. The district does not promise any particular level or method of access to the Parent Portal for viewing student information. The district will not be responsible for actions taken by the parent or guardian that would cause compromise of their student information. The district reserves the right to limit or terminate the Parent Portal site for viewing student information without notice. All parents or guardians who use the Parent Portal to access their child(ren)’s information consent to electronic monitoring and understand that this is a private network used as an educational tool by Marshall Public Schools employees.

**Initial Account Request and Setup**

Each parent or guardian only needs to complete one SISK12 Parent Portal Access Request form for all children in their household.

For security reasons, a school district official may request and verify parent identification with official photo identification.

The parent or guardian requesting the account will be emailed a username and password.

The district will file the completed and signed Parent Portal Access Request form.

The screenshot shows the Parent Portal interface for a student named Debbie Eilene Barker at Edwards Middle School, Grade 07, for the 0607 School Year. The interface includes navigation tabs for Home, Attendance, Discipline, Grades, Meals, and Other. Below these are links for Classes, Calendar, Announcements, Homework, Gradebook Summary, and Family Data. The student's name and school information are displayed prominently, along with 'Change Student' and 'Change Year' links. There are also dropdown menus for 'View: Full Year', 'Class Schedule', and 'Update Display', along with a language selection dropdown set to English.
